

# Samsung GALAXY S II

- 4.3" SUPER AMOLED Plus screen
- 1.2GHz Dual Core Processor
- 8.49mm slim and light design
- Samsung Hub Series; Games, Readers and Social Hub 2.0
- Free Premium Turn-By-Turn Navigation
- Android 2.3 Gingerbread operating system
- 8MP AF camera with LED flash

## 4.3" SUPER AMOLED Plus screen

- Brighter, less reflective, and slimmer than general Samsung SUPER AMOLED
- Clear separations of light and dark with super high contrast ratios
- Enhanced response time for smoother video enjoyment\*
- Expanded number of sub-pixels for improved sharpness and readability\*

## Samsung Hub Series

- Packed with content, enhanced user experience, simple and instant access
- Readers Hub – an all-in-one e-reading solution, gives access to thousands of book titles, newspapers and magazines both locally and worldwide
- Social Hub – for powerful networking that aggregates all your contacts, email and SNS communication to one page
- Game Hub – a premium game service that lets you play, connect and share games on your Samsung Android devices

## Powerful Battery

- 1,650mAh battery is smaller, but even more powerful\*
- Improved standby and talk time\*

## 1.2 GHz Dual Core Processor

- Supports, fast webpage loading, softer UI transition and ultrafast power-up
- Enhanced quality and smoothness of video capture and playback\*
- Great for using multiple applications at the same time

## Lost Phone Management

- If you lose your device you can log on to track and control your device remotely
- Track and ring - using the GPS signals on your device the location will show onscreen (from where you are accessing the program) and be updated every 15 minutes for 12 hours. You can call your mobile and it will ring on the highest volume even if it was originally on silent
- Lock and wipe out – allows you to lock your mobile and leave a message on the screen for someone who finds it to contact you. Still have not found your device? Best of all you can wipe the entire memory to make sure your private information doesn't get into the wrong hands
- Show call logs – You can forward calls from your device to another line and get your call logs to see who has called

## Premium Turn-By-Turn navigation by Navigon

- Maps pre-loaded on the device, free updates every 3 months\*\*
- Australia and New Zealand maps provided
- Turn-by-turn voice guidance
- 2D & 3D navigation & Route planning
- Drive & Walk mode
- Portrait & Landscape view
- Turn-by-turn voice guidance
- Favorites & Home function
- Auto Day/Night mode
- Add-on packages available for speed camera, live traffic and more....

## KIES Air

- Connect your device to compatible PC's where KIES is not installed and without the need of a hardwire connection
- Access your device through a browser and use a number of the phones key functions
- Send SMS, listen to music, set ring tones, edit contacts, check call logs and more

*\*\*Map updates are offered free of charge upon activation of the FreshMaps package and guaranteed for a 2 year period; after this time a fee may apply for further map updates. Data charges may apply for download of application and map updates.*
